I typically spend about 8-10 hours of time for every (1) hour sitting, this includes prep time for your sitting, the time with you, and processing time for the proofs, then processing of the images for your order, ordering and following up. This is the difference between a professional and a mall studio. Every file is individually processed before it is ordered to get the best print possible. I can enhance skin tones and remove blemishes. You can request cropping changes and other creative changes you can think of.

All print orders must be ordered 3 weeks from the time you need them during October and November. (Handbags and jewelry have longer lead times) The last date to have a sitting and be guaranteed for Christmas Delivery is December 4th and you must order by December 11th.
